## TO-DAY'S F.A. CUP FINAL.

## Bolton's Chance in First Half-Hour.

## WEMBLEY'S "SPELL."

## "A Critical Period for

often derives from what is really an incidental circumstance, and thus to-

of the professional period. In 30 seasons before the war the South could claim only five appearances in the final tie and only one success, that of Tottenham in 1901. Since the Armistice Southern clubs have contested six of ten finals, and two victories have been their reward, one being that gained by Cardiff City two years ago, when the trophy went out of England for the first time.

And now Portsmouth are trying to edress the balance. When they beat Aston Villa with a penalty goal and qualified as the Southern standardbearer there was a feeling in the country generally (Hampshire excluded) of Lancashire that it was all too easy for the Wanderers, that it was hardly for the Wanderers, that it was hardly fair to take the money at the Stadium. More than that, there was no little admonitory sympathy for Portsmouth; they were told to read of what happened to Manchester City three years ago. Nor was the attitude without justification. Portsmouth numbered last in the

Nor was the attitude without justification. Portsmouth, numbered last in the League competition, had won 10 and lost 19 of their matches; they had scored only 42 goals and surrendered 73. Bolton, on the other hand, had lost only 12 even if they had won no more than 11, and they had conceded.

But what is the position to-day? By a great revival that has few parallels in recent years. Portsmouth have all but made secure their position in the First Division—another point will do it,—and while they advanced Bolton fell until the pair almost collided in the "danger zone." In eight League games since March 23 Portsmouth have been beaten. March 23 Portsmouth have been beaten only once, have secured 12 points, and scored 12 goals to four. Bolton have played seven 4 times, won twice, lost thrice, and surrendered nearly twice as many goals as they have scored. Your racing man picks his horses on "current form"—but fortunately for Bolton's spirit they do not always win. Neither do favourites, and Port-moith are just about hoisted into that glaring light to-day. Bolton may be pleased; Huddersfield, Ar-enal, and Aston Villa have all been losing favourites in the last five finals.

Surplems may be decided this atternoon, when interest will be concentrated on fourteen matches in which championship, promotion, and relegation issues are involved.

Sheffield Wednesday require only one point to make certain of the championship, and it is generally expected that they will be successful against Burnley at Hillsborough, where no visiting side has won. Burnley themselves are in

Bolton's confidence is very high, and incidental circumstance, and thus to-day, when Bolton Wanderers and Portsmouth do combat at Wembley for Association's most glittering prize, it is not merely an extra trial of merit between two First Division teams but a renewal of the undying rivalry between North and South.
